AirWaves

AirWaves: Better Air - Naturally

AirWaves is a unique whole house air purifying system that reduces household odors & airborne microbes utilizing two of nature's strongest purifiers "ozone" & "ultraviolet light".

It's evident that all homes possess "stale" air. Odors come from tobacco, cooking, pets, bathrooms, mold & mildew. Mold, bacteria, & viruses can grow in your home, especially in your ventilation system ductwork. The EPA says indoor air quality is often 2 to 5 times, and can be 100 times WORSE than outdoor air! So give your home a breath of fresh air without sprays, chemicals, single room purifiers, expensive vent filters, or air fresheners that only cover up the problem and have AirWaves tackle the problem!

Standard Features

- Safe & energy efficient
- Treats entire home
- Completely automatic
- Reduces odors from pets, smoke, cooking, bathrooms, & mildew
- Reduces airborne contaminants
- Reduces stale air
- Dual acting UV + O3
- Silent & invisible operation
- Adds value to your home
