

BETTER WATER LLC

ProSeries Anti-Scale Water Filtration System

Residential

Salt Free & Scale Free

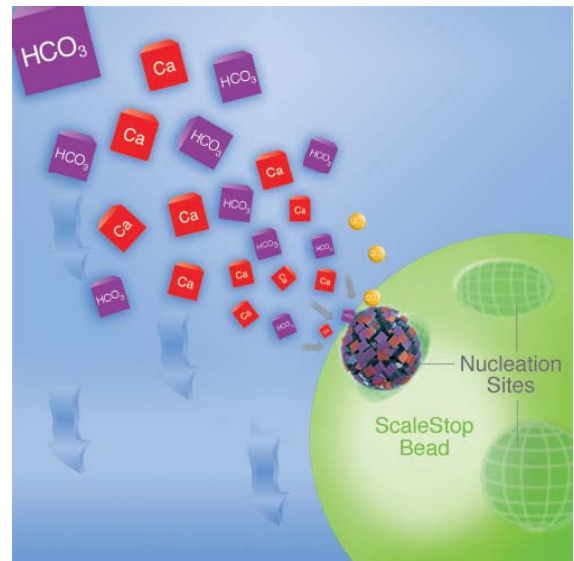

The ProSeries Anti-Scale Water Filtration System, by Better Water LLC, is the natural way to eliminate the nasty effects of hard water without using salt or electricity. Using a unique process of template assisted crystallization, hardness minerals form microscopic crystals, which stay suspended throughout the water supply. Once the hardness crystals are in colloidal suspension, they can't deposit and form lime scale on plumbing surfaces or interfere with soaps and detergents.

Protect your pipes and water using appliances. The ProSeries Anti-Scale Water Filtration System improves the efficiency of water using appliances and greatly reduces the amount of soap and detergent needed. Clothes are softer, sinks are cleaner, showers are cleaner, shampoos and soaps lather more and clean better!

ProSeries Anti-Scale

Standard Features

- No electricity
- No salt
- No waste water
- Simple installation
- Third party tested & validated
- Multi layered fiberglass tank
- High quality media
- Environmentally friendly
